Who am I?

I'm a Software Developer who values "how?" as much as "what?". I specialize in terminal workflows (Neovim/Bash) and favor robust, logic-driven code over sloppy "vibe coding" trends. More info on my skills below.

I'm not against AI in development, I think it's just the catalyst and not the reaction itself.

Technical Skills:

Languages: Golang, TypeScript, JavaScript
Lua, Python, GDScript, HTML/CSS

Frameworks: ReactJS, NextJS, Gin-Gonic,
Love2D, Godot Engine.

Tools: Neovim (Daily Driver), Git,
Docker, Bash Scripting,
Unix Terminal, Figma.

Core Competencies:
CLI Tooling, Game Logic,
Web Tech, Scripting,
Security/Encryption basics.

Education & Certifications:

Higher Secondary (12th Grade):
Computer Science @ KristRaj HSS, Kollam

Harvard CS50x: Completed the intensive
Introduction to Computer Science certification.

[VIEW CERTIFICATE](#)

Kaggle Certificate for Python Coder.
Created an AI Agent Python notebook of Google.

[VIEW CERTIFICATE](#)

Known Languages: English (Fluent)
Malayalam (Native)

Selected Projects:

ARTCII - Create ASCII Art Right from Your Browser.

TypeScript, ReactJS, TailwindCSS

This is a full-featured ASCII art maker right inside your browser. Enjoy amazing features like layering, coloring, and box-drawing tools. (Desktop Only)

Clickable Links: [Source](#) | [Demo](#)

Odé - YouTube Music Integration

TypeScript, ReactJS, TailwindCSS

You can create and play music cards. Just paste the YT Links and get your card ready! Ready to share, play, and more! (Desktop Only)

Clickable Links: [Source](#) | [Demo](#)

DreamShell - CLI-based Productivity Tool

Golang, Tview

A CLI app to write your dream journals in a retro cybercore-y way... ;)

Clickable Links: [Source](#)

README Wizard - Documentation Engine

TypeScript, ReactJS, TailwindCSS

Something that empowers every developer to create their README. md files with unparalleled ease and convenience! (Desktop Only)

Clickable Links: [Source](#) | [Demo](#)

Ghost Ink - Secure Communication Tool

TypeScript, ReactJS, TailwindCSS

A utility to hide and encrypt secret messages within plain text using password-protected logic.

Clickable Links: [Source](#) | [Demo](#)

Coins are Bullets - Action-Strategy Game

Lua, Love2D

An original game where in game currency serves as both resource and ammunition.

Clickable Links: [Source](#) | [Demo](#)

Pixecho - Image-to-Terminal Utility

TypeScript, ReactJS, TailwindCSS

A niche utility that converts images into echo commands for TUIs

Clickable Links: [Source](#) | [Demo](#)

Community & Socials:

Hack Club:

Active member of the global maker community, focusing on rapid prototyping and shipping.

Co-organised Daydream:

I co-organised Daydream Kerala 2025.

[Here's a video about that.](#)

Little Kites:

Alumnus of the state-level IT initiative.

Trained in FOSS and hardware basics.
